

## [Research Binder of Judge Novack](#)

Updated through February 19, 2019

I have the privilege of continuing Judge Randall Newsome's research binder. Although this represents as to its current level of accuracy. Some of the cases may well have been superseded, reversed or otherwise no longer be good law. I, like Judge Newsome, post it with the intention of assisting those who are researching bankruptcy matters within the 9th Circuit. Users should consider it a first, but not final research tool, and should cite check all cases before relying on them.
